

Whom to Contact About More Information

The Early Intervention Colorado Program is Colorado's system of early intervention supports and services for families who have children ages birth through two years of age. Accessing early intervention services begins when a parent or other caregiver is first concerned about an infant or toddler's development or the child has been diagnosed with a physical or mental condition, which is associated with a high probability of developmental disability. Parents can call **1-888-777-4041** to get connected with a local program to help begin the process of determining whether or not a child is eligible for early intervention and planning for the most appropriate services and supports. A service coordinator is assigned to help the family through the process. If you are interested in finding out more about the Early Intervention Colorado Program, please contact the Community Centered Board in your area. The counties are listed alphabetically. Match the number code below with the Community Centered Board listed below the Colorado map.

Alamosa -(1)	Cheyenne -(7)	El Paso -(20)	Kiowa -(16)	Montezuma -(3)	Rio Grande -(1)
